Anchor AZ 24+700

Diagram showing the structural analysis of a sheet pile wall (Przebieg C-C) with a height of 10.0 m and an embedment depth of 6.81 m. The wall is supported by anchor AZ 24+700. The diagram displays the soil profile, groundwater level (dotted line), and internal forces (M, N, Q, w) along the wall length. The soil is divided into layers with varying properties, and the internal forces are shown as diagrams. The design values for the anchor and the wall are provided in the table below.
